SIS Swiss International School runs 19 bilingual, private day schools in Switzerland, Germany, Italy and Brazil. In Switzerland, around 1,700 pupils from both local and internationally mobile families learn bilingually in German and English.

We strive for our students to become global citizens with a strong sense of their origins. Our bilingual, stimulating learning environment supports students in achieving academic excellence while allowing them to take enjoyment from and pride in what they learn.

Our educational concept lies at the heart of our social, pedagogical, didactical and entrepreneurial approach. But every concept is only as good as its implementation in everyday school life – that is why we make it our highest priority to live by it on a daily basis.
