Your detailed school website on privateschools-switzerland.ch

1. Convey atmosphere with pictures of your school.

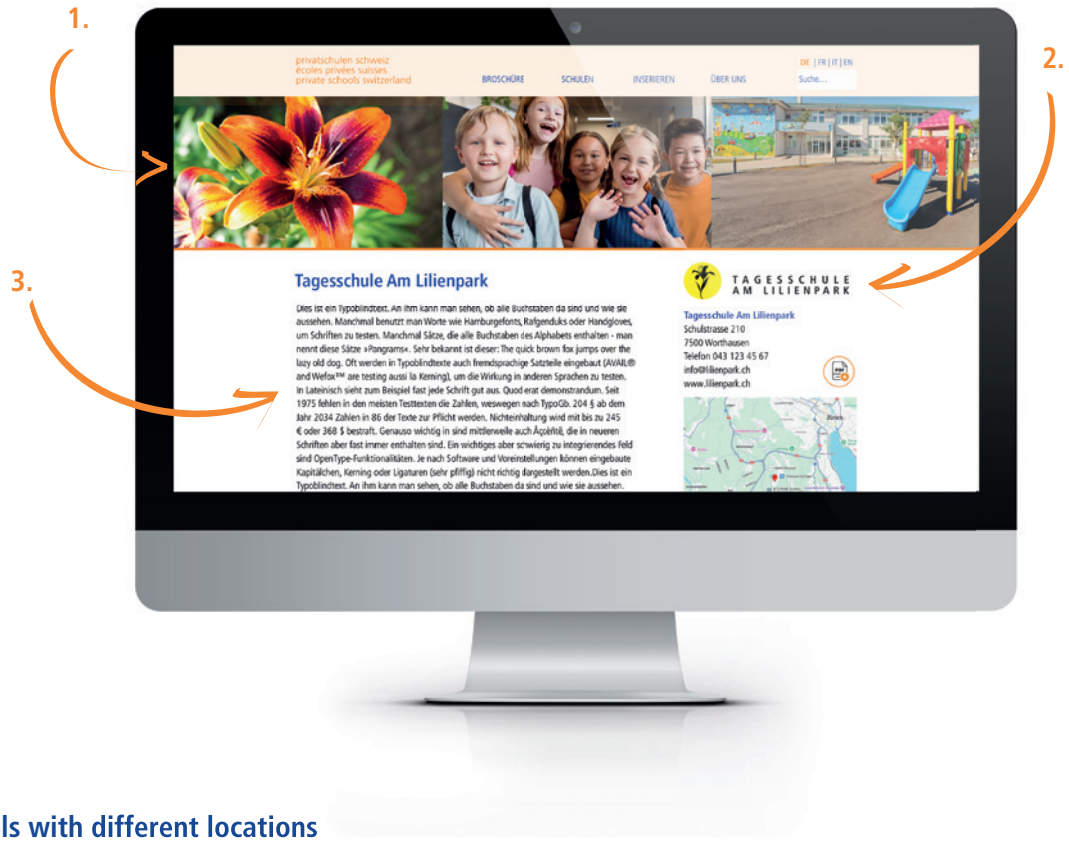

Number of images: 3 to 6 per school
Image proportion: 16:9
Formats: .jpg (.jpeg) or .png
Number of pixels: 1920 px × 1080 px (minimum value)
Images that do not meet these specifications run the risk of being displayed pixelated or distorted.

2. Add your contact details with your school logo.

Number of logos: 1 logo per school
Number of pixels: Width min. 800 px (*for pixel-based formats)
Formats: .svg, .jpg* (.jpeg*) or .png*
Logos that do not meet these requirements run the risk of being displayed pixelated or distorted.

3. Describe your school!

No character limit for your texts.
Provide us with the text in all four languages so that you are visible to an even wider audience.
No special formatting is possible in the individual texts.

Schools with different locations

Provided that the various listings use the same images, the same text and the same school's logo, there will be no additional costs for schools with multiple sites.
Bookings for individual listings per school site will be charged in accordance with the price list.
